- BCDIFS presentation

break for lunch

- DIACC POC presentation

Guiding Principles for Negotiation Between ICCS & DIACC

Alex Bourque
Digital Identity Co-Lead

Action Item

Joint Councils Teleconference, November 20, 2019

1B — Digital ID Co-Leads to report back to members on the guiding principles for negotiation between ICCS and DIACC for review and feedback.

Survey answers

In your view, how can public sector partners and DIACC work together to advance pan-Canadian digital identity efforts?

- Ensure interoperability between private and public sector.
- Develop a common definition of levels of assurance.
- Set the strategic direction for digital identification and authentication.
- Workings groups and committees to include private and public sector members as required.

In your view, which priorities should be tackled by a cross-sector digital ID forum such as DIACC?

- Continue developing a single, unified PCTF.
- Development / experimentation / adoption of standards and components.

Survey answers

Is your jurisdiction interested in participating in DIACC?

- Most respondents are interested in participating in DIACC – some already participate while others cannot afford the current pricing structure.
- Would like the relationship to be clearly defined otherwise there is the potential for conflict of interest.

Do you have any additional topics for the upcoming ICCS negotiation with DIACC?

- DIACC Membership pricing structure - affordable licensing model for all jurisdictions.
- Protection of the public sector voice.
- Maintain regulatory balance with digital enablement.

Jurisdictional Digital Identity Representatives

2. PCTF Assessment Worksheet

- Consolidation all **Conformance Criteria** for each atomic process (approximately 250 in total)
- Integration of **Verified Organization Conformance Criteria** (may be a separate worksheet)
- Continued refinement and validation of Conformance Criteria

3. PCTF Assessment and Mutual Recognition

- Continued iteration of PTCF assessment processes into a formalized program.
- Exploring alignment with other frameworks (eIDAS, Digital Nations, etc.)

BC Digital Identity for Federal Services (BCDIFS)

Sophia Howse

Executive Director, IDIM program, BC

Beverly Dicks

Assistant Deputy Minister, Service BC

Silvano Tocchi

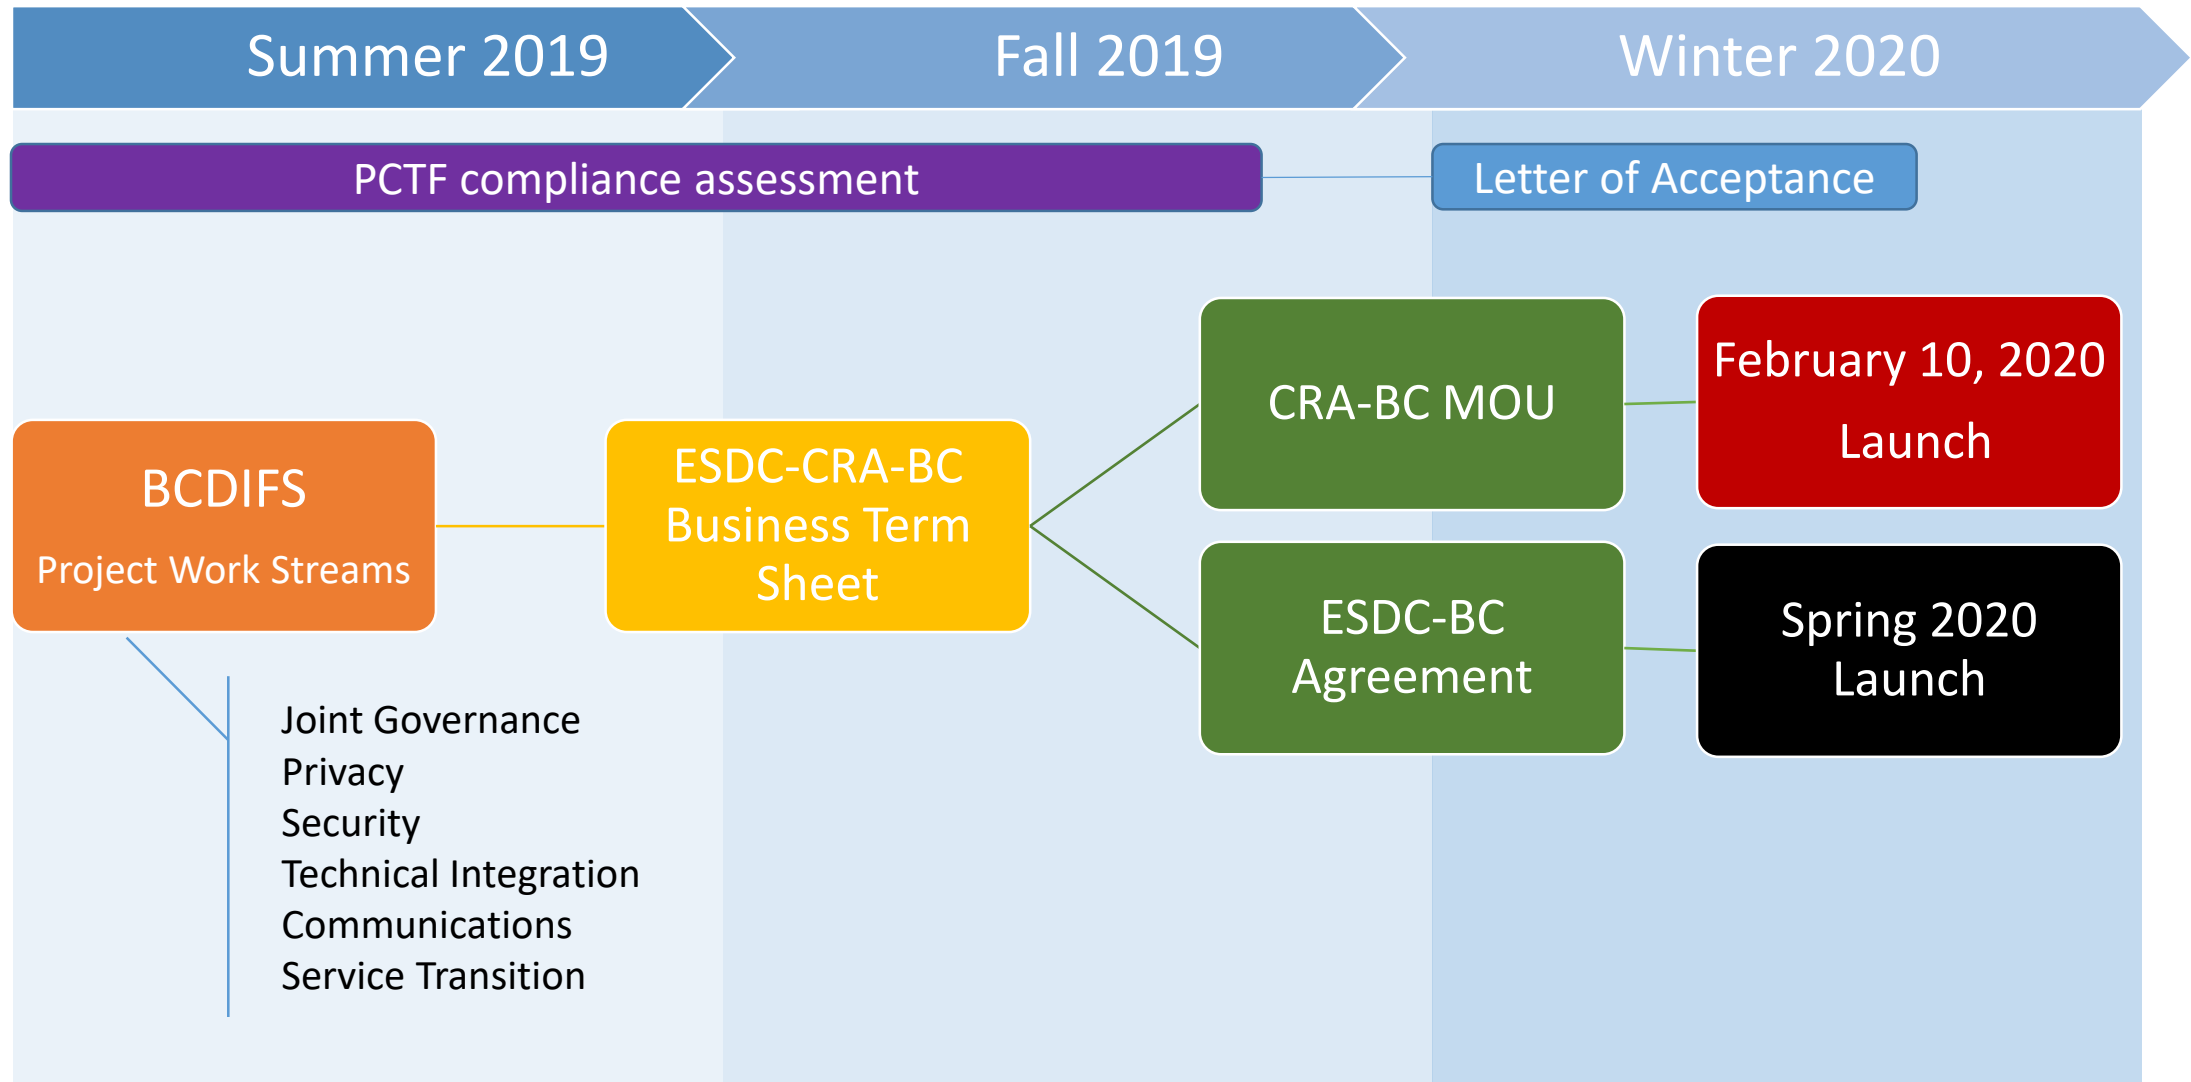

Director General Digital Services
Directorate

About BCDIFS Project

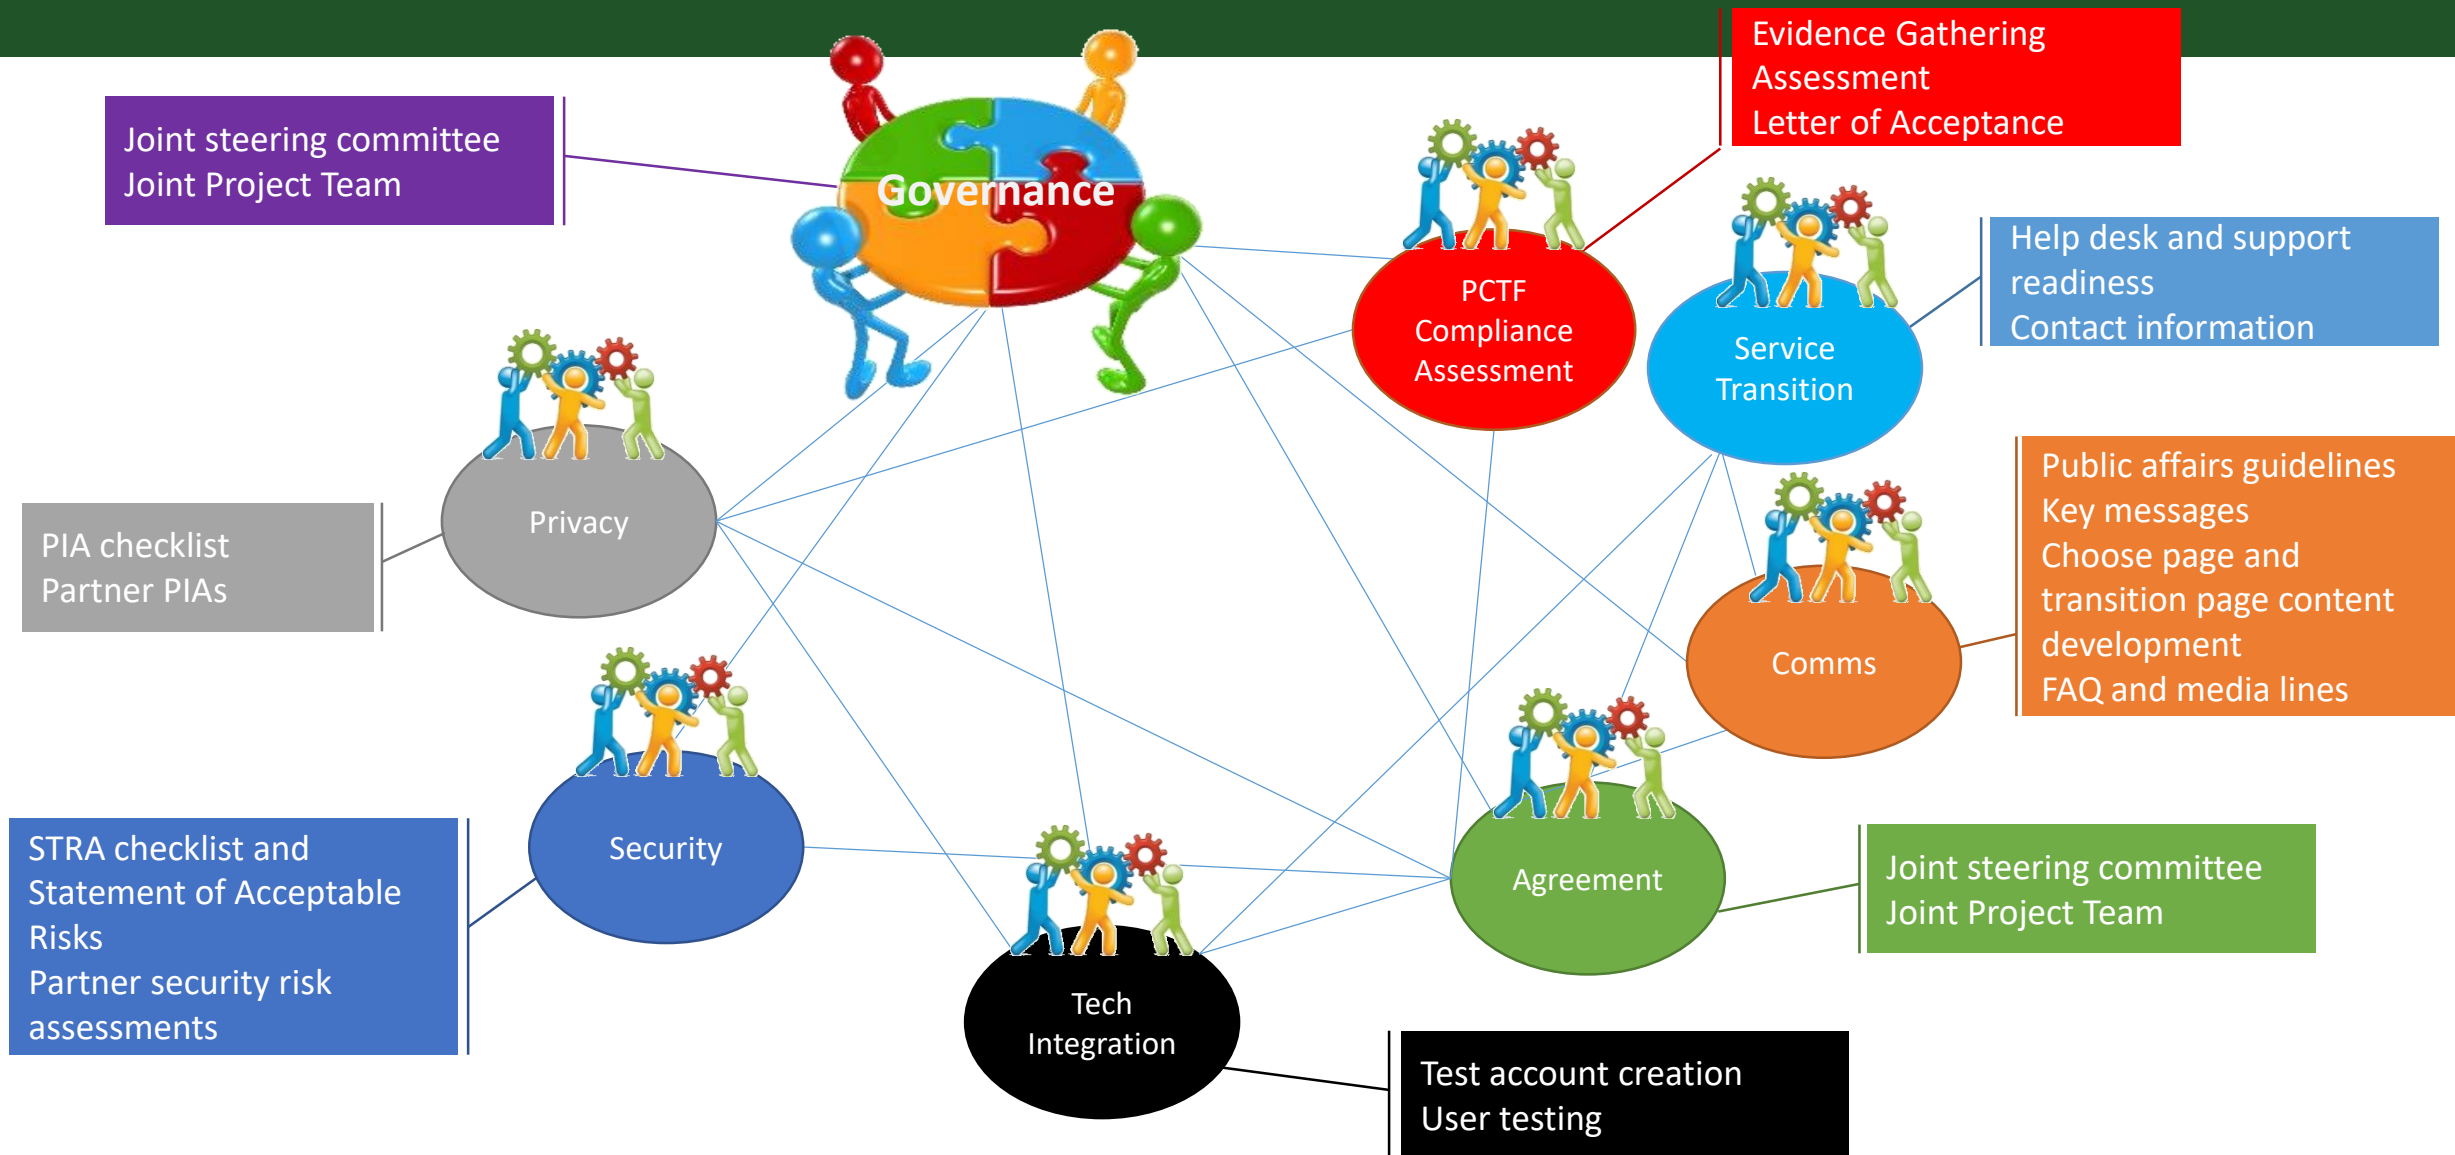

- Joint project with BC and federal partners – ESDC, CRA and TBS
- Integration of the BC Services Card digital ID with ESDC My Service Canada Account (MSCA) and CRA's My Account
- Launched with CRA February 10, 2020
and planned with ESDC Spring 2020

BCDIFS Project

What a BC-ESDC-CRA-TBS joint project looks like

Project Benefits

To Citizens

Convenience

- Single authentication method for both provincial and federal online services
- Easy to use and mobile enabled
- No need to wait for Access/Security Code to complete MSCA or My Account registrations
- Streamline citizen experience across borders

Security and Trust

- High level of trust (Level of Assurance 3)
- 2-factor authentication
- No personal information from other BC services is shared with CRA or ESDC

To Service Provider Partners

TBS (and Canada)

- Accelerates roll out and refinement of PCTF
- Strengthens alignment with pan Canadian Digital Identity goals

CRA and ESDC

- Promotes effective working relationship with provincial and territorial partners
- Provides better services to Canadians through easier access federal programs and services online
- Streamlines registration process by eliminating the need to issue Personal Access Codes or Security Codes

BC

- Promotes wider adoption of BC Services Card activations with more value-add services added
