Appendix

Framework Working Group - Scope

- The scope of the project is to plan, design, build and implement an overarching “framework” linking all the work and priorities of the Councils (PSSDC, PSCIOC and Joint Councils) as well as the work of its several sub-committees and working groups to ensure a common understanding among members of the “current state” in regards to all the work that is underway. A clearer understanding of the interconnection of the various work and priorities of the Councils would help to improve communication, resource allocation and prioritization of work going forward.
- By developing a framework (visual map) of both a macro’ view (the ‘what’) and a “micro” view (the “how”) of all the work of the Councils, it would help members/jurisdictions to better leverage its limited resources by establishing project priorities, allocating resources in a more efficient manner and providing strategic direction and oversight as required.
- While the work of the PSSDC, PSCIOC and Joint Councils involve many levels of complexities, there are also many opportunities to be leveraged and the development of a framework (visual map) would help to visualize and resolve disconnects, redundancies and gaps on current and future priorities.

Framework Working Group - Objectives

- To develop a strategic “framework” (visual map) linking all the work of the Councils (PSSDC, PSCIOC and Joint Councils) as well as the work of its Sub-Committees and Working Groups to better identify the linkages and gaps of all the work that is underway as it relates to the Councils current and emerging priorities.
- The ‘framework’ to bring focus, direction and alignment to the work of the Councils; setting of ‘national vision’ on current and emerging priorities going forward.
- The ‘framework’ to include a list of the several sub-committees and working groups of the Councils in order for the Councils to discuss how these groups are supporting the current work and how they can help to advance new Councils’ priorities.
- The ‘framework’ to help identify areas for better collaboration between the Councils and to assist in the sequencing of current and future priorities.
- The framework to include both a macro’ view (the ‘what’) and a “micro” view (the “how”) of all the work and priorities of the Councils
- The ‘framework’ to include linkages between the work of the FPT Deputies Ministers’ Table and the Joint Councils as well as other FPTM working groups of interest to the Councils.
- **The ‘framework’ to be a ‘living document’ that is updated on ongoing basis and to be reviewed at every in-person Joint Councils meeting.**
