CLOUD SERVICES 	Strategic discussion with John Hewie, National Security Officer, Microsoft Canada, related to procurement.	<ul style="list-style-type: none"> Follow up from September discussion with Microsoft Discussion on SaaS' business strategy 		
PSCIOC WORKING GROUPS / CoP	NCSIP: <ul style="list-style-type: none"> Security Incident Handling Best Practices - better understanding of what is required to successfully manage a security incident. 		NCSIP: Progress report on the development of a document for discussion with Privacy Commissioners related to ATI process and best practices around not disclosing sensitive information in response to ATI requests.	
TOPICS OF INTEREST / PARTNERSHIPS 	Information-Sharing Roundtable <ul style="list-style-type: none"> PSCIOC members to identify their key priorities, initiatives and challenges facing their jurisdiction using their information sharing report as basis for discussion. Confirm topics of interest for discussion at future PSCIOC meetings (based on PSCIOC info sharing reports and from roundtable discussion of Sept. 23rd) 			

Topics of interest that have been identified by members for inclusion in teleconference/meeting agendas:

- Emerging threats and risks: Is your security team right sized for your organization? -How well is your security team linked to IT / cyber operations?**
- Members agreed that cyber security be a topic for a future agenda with having one of the jurisdictions share their experiences.
- Presentation on taking transformation from traditional delivery to DevOps delivery models** (lived experience rather than theory on where we are on the journey). *Mark Schwartz from Amazon Web Services was identified as a presenter.*
- Phoenix Pay System** (*September 2020 meeting*) - Lessons learned on the Phoenix pay system (action item) and digital replacement solution that is being built
- Discussions on ad hoc workloads and the business case around that, some of the tools you can tap in and out of when needed.
- Artificial Intelligence and machine learning, issues we are all facing at different angles.
- Issues that jurisdictions are facing with Esri from a licensing and procurement perspective.
- Business Intelligence, Analytics, and Identity. Where we are on delivering identity services.
- Are you embracing Design Thinking and Human Centered Design?
