## Topics of interest that have been identified by members:

- IT investment and demand planning with funding related to capital pieces
- Cost recovery model for infrastructure technology services
- Oracle RDBMS alternatives like PostgreSQL (PostgreSQL database is open-source and object-relational database management system whereas Oracle is a commercial relational database management system which is available in different editions.)
- Discussion on SaaS' business strategy

- Presentation by Statistics Canada on DevOps (fall 2021)
- Phoenix Pay System (*September 2020 meeting*) - Lessons learned on the Phoenix pay system (action item) and digital replacement solution that is being built
- Discussions on ad hoc workloads and the business case around that, some of the tools you can tap in and out of when needed.
- Artificial Intelligence and machine learning, issues we are all facing at different angles.
- Issues that jurisdictions are facing with Esri from a licensing and procurement perspective.
