

Public Sector Chief Information Officer Council:

Call out for new PSCIOC Treasurer

Harry Turnbull, PSCIOC Treasurer, has served as PSCIOC Treasurer since February 2013. Harry has advised that he is planning to retire before the Fall in-person meeting and therefore members must identify a new treasurer.

The role of Treasurer is an important role of the Council. The Treasurer, with the support of the ICCS, reviews the PSCIOC's bi-annual financial statements and annual members' contributions. A treasurer's report is provided at each in person meeting of the Council. The Treasurer also reviews and approves funding requests from working group co-chairs related to their projects or meetings based on current meeting expense guidelines. Thus, while the role of PSCIOC Treasurer is important, it should not be onerous.

This is by way of a call out to PSCIOC members to consider the role of PSCIOC Treasurer starting August 1st, 2019
