

## **PSCIOC IT PROCUREMENT WORKING GROUP INFO REPORT FOR SEPTEMBER 2019 PSCIOC MEETING**

### IT Procurement Working Group Overview

In February 2010, PSCIOC endorsed the creation of a working group to explore potential opportunities for inter-jurisdictional cooperation and collaboration for IT procurement. The Group functions more like a community of practice whereby the members reap value by collaborating and sharing experiences.

### Mandate

The mandate as described in the Terms of Reference is to assess opportunities for the Government of Canada, and Canadian provincial, territorial, and municipal governments, to leverage existing and/or newly created I&IT agreements to the benefit of all participating governments and their citizenry.

### Update as of September 9, 2019

- Vice Chair continues to remain vacant

- SSC reached out twice to provincial and territorial governments regarding the Notebook (NMSO) pilot and the only uptake was from the Government of New Brunswick
- Primary reason stated by participants of July Working Group meeting for not wanting to participate is their jurisdiction is moving to a DaaS (device as a service) model
- Members suggested Microsoft or Cisco products as a pilot
- SSC committed to sharing their procurement workplan with the Working Group so it can help identify collaborative procurement pilot opportunities

Respectfully submitted,
