

Introduction

The goal of this PSCIOC Cloud Survey is to record the top three cloud services that are of interest to each individual PSCIOC member organization. The data collection will provide insight into the aggregate needs and opportunities of PSCIOC members for furthering cloud adoption. The classification of cloud services is based upon the National Institute of Standards and Technology Special Publication 500-292. Thank you for your contribution. If you have any questions regarding the survey then please email either Serge.Caron@tbs-sct.gc.ca or Stephen.Gordon@gov.bc.ca.
