

PSCIOC Solarwinds Demo

PSCIOC Solarwinds Demo

- Solarwinds is the Provincial Government's enterprise network and system management tool.
 - Owned by the Government and running in our data centres
 - Real time view of the entire provincial network updated every 30 seconds
 - Shows up/down status of equipment and threshold alerts
 - Bulletproof Solutions at the Atlantic Tech Centre is contracted to run a Network Operations Centre (NOC) to monitor 1,500 devices on the network in a 24/7 environment. They alert the Service Centre of any issues.
 - ITSS utilizes the Solarwinds toolset beyond the NOC environment
