

# PSSDC Information-Sharing Template – February 2019

Information Sharing is collected for the purpose of the PSSDC Meeting of February 2019.

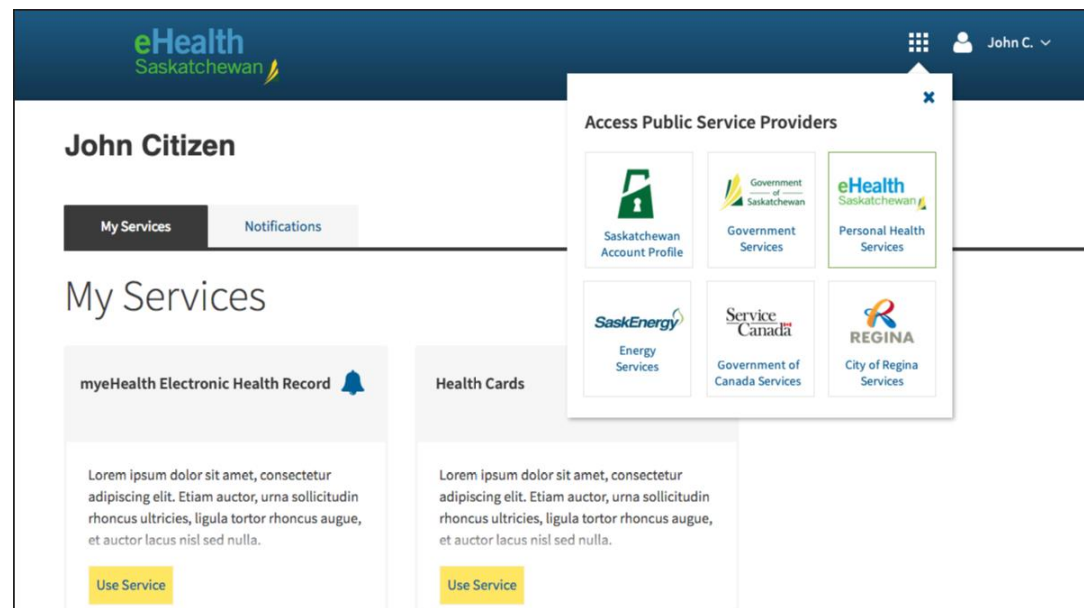

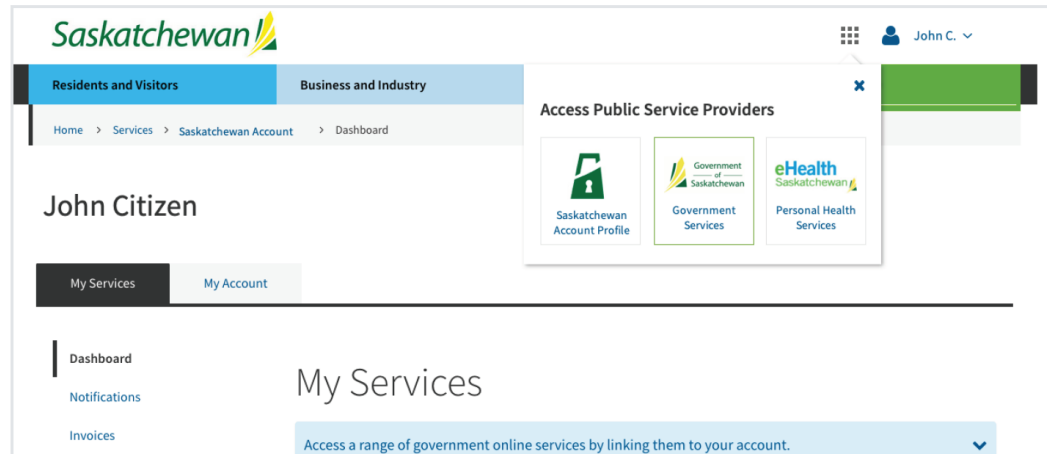

Information contained in this document cannot be shared without the approval of the member jurisdiction (author).

JURISDICTION:		Contact
<b>1. Accomplishments:</b> Briefly highlight major service delivery accomplishments, progress, and/or significant milestones achieved in your jurisdiction over the past 6-12 months.	<h2>Health and Social Services offer digital services for autism funding</h2> <p>The <a href="#">online application</a> is for parents or guardians who have children with an autism diagnosis, are under six, and living in Saskatchewan. It is a simple and quick way for families to apply and upload all of their documents. Feedback has been positive and there are plans to gather formal feedback, in support of continuous improvement efforts, when families renew their funding.</p> <p>The <a href="#">Autism Service Provider Registry</a> lists Saskatchewan private-practice professionals who have been approved to work with children with autism as part of the ASD IF program. The registry was created to help families locate services in or near their home communities. Feedback from the Autism Stakeholder Working Group and thorough testing have ensured that the registry is responsive to the needs of families.</p>  <p><b>Saskatchewan Account</b></p>	<p>Joel Kilbride Director, Disability Programs Ministry of Social Services Phone: 306-787-4717 <a href="mailto:joel.kilbride@gov.sk.ca">joel.kilbride@gov.sk.ca</a></p>
		<p>Lisa Raddysh Chief Digital Officer</p>

[Saskatchewan Account](#) is expanding as a single account beyond the boundaries of executive government into a provincial public-sector ecosystem. The provincial Saskatchewan Account will offer sign in, profile management and identity validation for people wanting to access their online health records from the Treasury Crown Corporation eHealth in early 2019-20.

This allows the province to leverage existing provincial investments while keeping the service experience centred on the people of Saskatchewan. It is the beginning of offering a single account to access public services in Saskatchewan across different levels of government and Crowns. Making it easy to login once, control personal information, privacy and consent in one spot, access provincial services and over time digital identity validation.

## Organizational Account

An Organizational Saskatchewan Account allows an authorized person, who is validated as an individual, to connect a business or organization to an individual account.

The registration process to establish a trust based relationship between a validated individual and an organization is verified by authoritative sources. We use the Business Number to look up and match data between two authoritative sources (provincial drivers license and CRA).

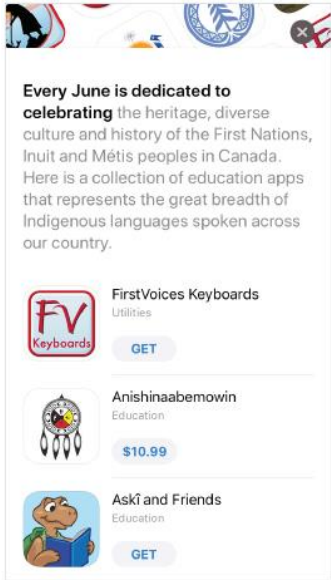

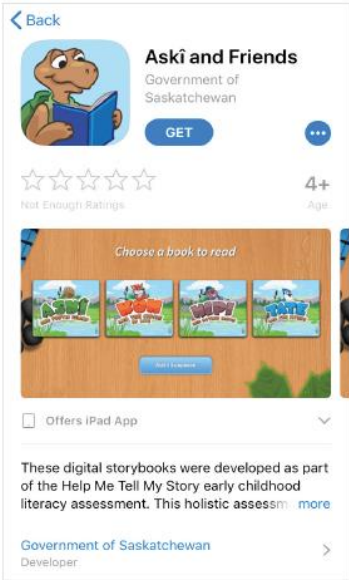

This person is assigned as the Administrator for the organization's Saskatchewan Account by default, and manages the services and users who can act on behalf of it.

## Aski's World holistic assessment for Saskatchewan classrooms

- Help Me tell My Story is a mobile app that uses a holistic approach to measure oral language development for Prekindergarten and Kindergarten children. It collects assessment data from the children, their caregivers, teachers and elders in the community. It also offers an educator web portal.
- Help Me Talk About Math is an app and web portal, which measure Grade 1 students' deeper understanding of mathematics. The iPad game helps Grade 1 students practice math concepts. It also offers an educator web portal.
- The team is currently working on implementing a French version of the tools.
